Scenario Village

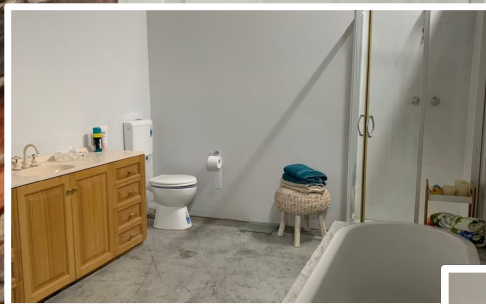

NSTA Central have created training facilities to capture real life in a simulated environment. The village consist of a Bar, Jewelry shop, Hospital wardroom, TAB, Aviation screening area, Bus, Service station, Convenience store, UTM 10-meter range and much more.

All areas are UTM (non-lethal ammunition) approved spaces.

Purpose built house

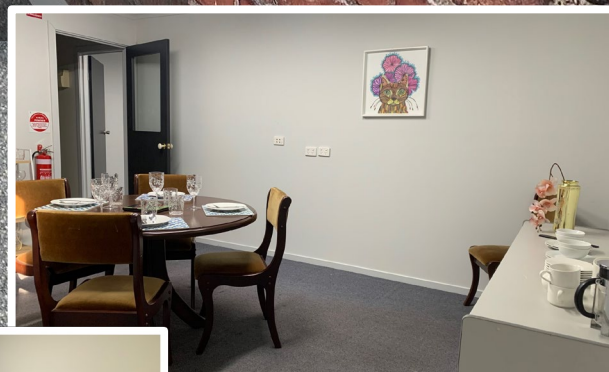

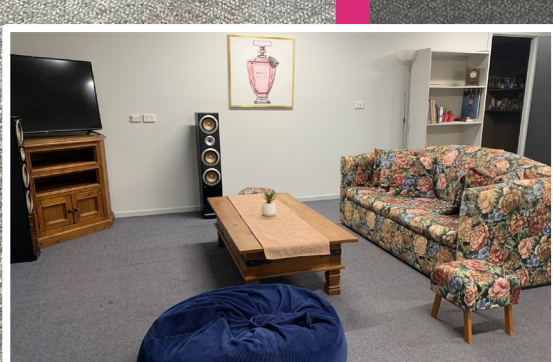

Newly built house for the purpose of training. Consists of full-size bathroom, 2 bedrooms, lounge/living, dining room, kitchen, hallway and powder room all fully furnished and ready for use.

Purpose built apartment

Newly built apartment for the purpose of training. Consists of, 2 bedrooms, a master and children's room, lounge/living, dining room, kitchenette, hallway, home office and laundry/ bathroom. All fully furnished and ready for use.

Completely different layout and design to the house including steps and cavity slider doors too

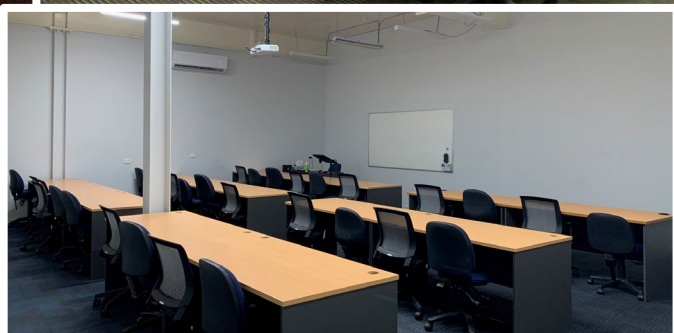

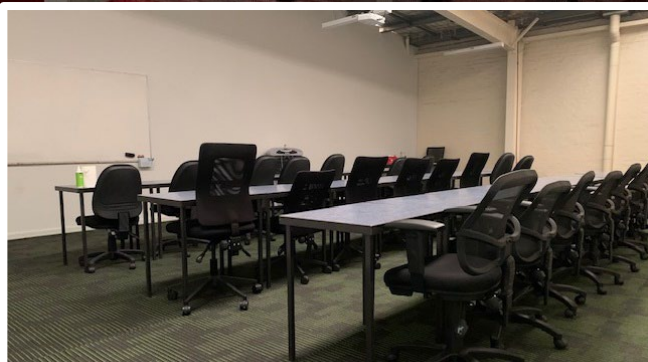

Soft Fall areas and Gym/ Boxing Ring

Our facilities have expanded to include 2 large soft fall areas with padded walls, and also a functional gym with boxing ring for defensive tactics, role plays, OSE training and First aid.

3 Large Classrooms

We have built and designed 3 large classrooms all fitted with XL whiteboards, projectors, screens and speakers. These classrooms are segregated from each other ensuring no interruptions between clients or sessions. An outdoor/indoor area too.

Transport & Training Vehicles

We have a full-size bus onsite for training those within the transport industry for a real-life setting. A cash in transit truck, scenario vehicles and more to ensure all training onsite is set and completed in life like environments. No imagination required here. We have it all.
